

## Vertical Elbow Cable Tray

## Vertical Elbow Cable Tray

Mill-galvanized steel elbow fitting for cable support, NEMA VE-1 tested.

Supports vertical cables with multiple NEMA class tray options. Durable I-BEAM construction and added bracing improve cable management.

Vertical outside elbows route cables downward; available in 4"-7" rail heights, 6"-36" widths, 12"-36" radii, in ladder and solid bottom types.

These elbows turn horizontally on a 90° angle to route cable ladder systems that run around corners or machinery.

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight ...
