

What is the model number of an 8-core single-mode fiber optic cable

Overview

The COMMSCOPE 760252030 single-mode fiber optic cable features eight tightly buffered cores encased in a durable outer jacket. Built with superior materials and precision design, this single-mode fiber cable offers exceptional bandwidth and signal integrity, making it ideal. COMMSCOPE Fiber Optic Cable Single-Mode 8-Core 760252030 is a premium-grade optical cable engineered for high-speed, long-distance data transmission. The end is stripped and fusion spliced to a single or multi-fiber trunk. The range is lighter and smaller than Multi Loose Tube alternatives and offers a robust solution capable of withstanding standard installation practices.

What is the model number of an 8-core single-mode fiber optic cable
