

Width of photovoltaic cable trays in Southeast Asia

Overview

At the heart of this expansive solar energy venture are the aluminum cable trays in Thailand, chosen for their essential role in managing and safeguarding the extensive network of electrical cables necessary for distributing solar power throughout the installation. A universal mounting system, built with cable trays of varying widths and connecting elements, allowing for versatile installation. This groundbreaking initiative aims to significantly transform the energy landscape of Southeast Asia's cable tray market is projected to grow at a CAGR of 7.8% through 2026, fueled by over \$150 billion in annual infrastructure spending. Wire mesh cable trays dominate search interest with a 42% higher AB rate than traditional ladder trays on Alibaba. Products are exported all over the world. For example: Middle East, Africa, Europe, North America.
